

SUPER SOFT PLAYDOUGH RECIPE

Super Soft Play Dough Recipe.

Ingredients:

- 1 cup of cooking Salt.
- 1 $\frac{3}{4}$ cups of hot water (put another $\frac{1}{4}$ of a cup to the side).
- Food dye (add this to your water).
- 2 cups of Plain flour.
- 2 tablespoons of canola oil.
- 4 teaspoons of Cream of tartar.

How to make Super Soft Play dough.

Measure out the ingredients and pour your ingredients in to a saucepan.

Mix ingredients together well, Stir so that the colors and ingredients combine into a paste (Children can help do this).

Cook in a saucepan on *low heat* until mixture leaves the sides of the pan. Depending on your oven, this could happen quickly.

Take off the heat.

Remember if it is very dry, add a dash of water in.

Store in an Air-tight bag for months.

[Tip: Try warming it together into a clump. You don't want to actually "cook it", aim to heat the ingredients so they combine into dough. Once it has cooled knead it with a dash of oil.]

**"Play is the
highest form of
research"
Albert Einstein**

**[Explore. Play.
Smile. Imagine.]**

**"Children learn as
they play. So give
them something
Fun to play with"**
